FOREIGN TRANSFERS RECORD

Since the 1928-1929 season, only three foreign players were allowed on the team. In 1991, that number increased to four players. Things changed since Bosman's law was applied during the 1994-1995 season, as players from the European Union were not considered "foreign players" anymore. In 1998-1999, Barça set their record with 17 foreign transfers.
